

Master of Science Program in Biology

1. Name of the Program

1.1 Name of the Program: Master of Science Program in Biology

1.2 Name of the Diploma: Master of Science (Biology)

1.3 Abbreviation name of the Diploma: M.Sc. (Biology)

2. Program overview

The Master of Science Program in Biology provide the in-depth knowledge in theory and research of biology for people in Mekhong Subregion. The program aims to produce highly qualified researchers.

The program aims to produce graduates with:

- In-depth knowledge in practical and theory of basic biology.
- High competence and independence in research ability in biology.
- High quality in science communication to students.
- Capability to exchange an experience and knowledge relating to biology.

3. Study plan

3.1 Plan A Type A1. No course work, Thesis 36 credits. Total program 36 credits.

3.2 Plan A Type A2. Course work 20 credits, Thesis 16 credits. Total program 36 credits.

4. Admission requirements

4.1 Plan A Type A1: Research.

–A Bachelor of Science in biology (or relating) with GPA not less than 3.00.

–At least one year research experience.

4.2 Plan A Type A2: Research and course work.

–A Bachelor of Science in biology (or relating) with GPA not less than 2.50.

5. Program length

Length of program 2 years, with maximum of 5 years.

6. Fees

- Application fee per subject area 40 USD
- Tuition fee/semester 840 USD
- Oversea Student Fee 500 USD
- Thesis Defense 45 USD

7. Research group

7.1 Botany

7.2 Animal

7.3 Genetics

8. Scholarship

None.

9. Contact

Mr. Yodchaiy Chuaynkern, Ph.D.

Department of Biology, Faculty of Science,

Khon Kaen University, Mueang Khon Kaen, Khon Kaen, 40002 Thailand
