Name: Jingxuan Zhang
The People's Republic of China

Profile

Name: Jingxuan Zhang

Country: Chinese

Current Position: Technology analyst

Workplace Name: Allied Irish Bank, The Republic of Ireland

Research Field or Research Areas of Interest: Business Analytics

Career goals: My long-term career goal is to become a successful business analyst, utilizing my skills in data analysis and interpretation to help organizations make informed decisions that drive growth and success. I am currently taking steps to achieve this goal by furthering my education in business analytics and gaining practical experience in data analysis through my work. I am committed to staying up-to-date with the latest tools and techniques in this field, and I believe that my passion for business analytics and my ability to communicate insights effectively will make me a valuable asset to any organization. Ultimately, I am eager to contribute to the success of a business through the power of data analysis and insights.

KKU Graduation

Faculty: International College

Degree: Bachelor Degree

Major: Global Business

How did KKU influence your career decisions?

I am proud to say that KKU has had a profound impact on my educational background and personal growth. The university's commitment to international education and cultural exchange has exposed me to diverse perspectives and opportunities that have enriched my academic and personal experiences. Through the guidance of esteemed professors and mentors, I have been able to develop the critical thinking skills and knowledge necessary to succeed in my academic pursuits and future career aspirations. Additionally, the university's emphasis on community engagement and service has fostered my sense of social responsibility and instilled in me the importance of giving back to society. I am grateful for the education and experiences that KKU has provided me, and I am confident that they will continue to shape my future endeavors.

DEPARTMENT OF PHYSICS, FACULTY OF SCIENCES, KKU, IS RANKED THE FIRST IN THAILAND FOR PHYSICS AND ASTRONOMY BY SCIMAGO INSTITUTIONS RANKINGS (SIR) 2023

World institution ranking by SCImago Institutions Rankings (SIR) is done every year, placing universities, research institutions, governmental and private organizations of the world in the order of performances. The criteria are based on three indicators, each with the designated weights, namely: (1) Research Factor - 50%, by considering the number of publications and SCOPUS citations; (2) Innovation Factor - 30%, by considering the number of intellectual property in the PATSTAT database; and (3) Societal Factor - 20%. In 2023, Khon Kaen University is placed the first in Thailand for the field of Physics and Astronomy.
